

DESTINATION COUNTY

2025 Strategic Plan

THE WORK OF A DESTINATION ORGANIZATION

COUNTY

VISION

A better life for all of Door County through strong, sustainable practices supported by local communities that welcome a diverse group of explorers.

MISSION

To inspire travel that drives community enhancement. Through innovation and partnerships, we will share stories of Door County's people and places, deliver world-class experiences, strengthen the industry, work to ensure all travelers feel welcome and preserve Door County's way of life and its natural resources.

PROMISE

We will promote travel to Door County in a way that aims to minimize the environmental and social impact while maximizing economic impact. We strive to foster a local sense of place to ensure quality of life for residents that creates a positive impact on the county.

THREE PILLARS

OF DESTINATION STRATEGY

GOAL #1

Be bold, creative, and action-focused, supporting transparency and measurable outcomes.

L. town

GOAL #2

Encourage stewardship by elevating Door County and each of its communities' authentic character, creative energy, and brand.

OBJECTIVES

- Create incremental growth for the local economy by, developing, expanding and promoting a united visitor economy
- Implement targeted promotions to disperse visitation seasonally, throughout all communities, and optimize economic impact by considering visitor capacity, passions, and market trends.
- Execute integrated efforts to generate economic benefits for Door County through research, marketing, communications, and sales
- 4. Tell authentic, honest stories that accurately reflect both the past and present, intersecting our community's identities, cultures and shared values

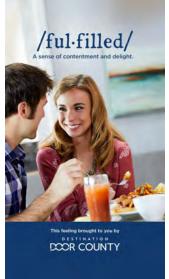

Strategy #1:

Develop a multichannel marketing plan that prioritizes key objectives for Destination Door County, emphasizing overnight stays.

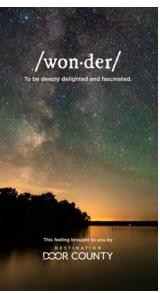

CREATIVE APPROACH

Feelings Campaign

That Door County feeling. It's a special one. It's unique for everyone but something that is felt to the core while exploring this amazing spot on the globe. With a clean, minimal aesthetic, the Feelings campaign successfully reaches audiences, placements, and seasons.

And art inspired by the beauty of Door County creates visual storytelling opportunities unique to our destination.

MEDIA PLAN

What to expect......

Tried & True Tactics. Google SEM and Meta are key drivers of steady, efficient website traffic while also driving engaged visitors and booking referral conversion. These tactics are constant performers that help us maintain key performance metrics year over year.

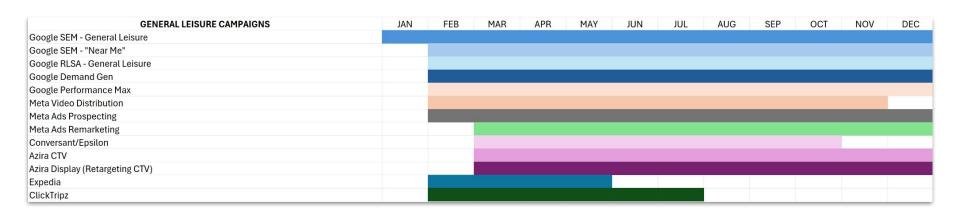

Utilizing AI. The 2025 plan includes new tactics to take advantage of Google's AI efforts to help us serve the right message to travelers at the right time. We have also layered in a high impact ad unit featuring a chat bot that has proven to drive highly engaged site traffic while providing insights into what travelers are looking for when researching Door County.

2025 General Leisure Paid Media Timeline

MEDIA PLAN

SEARCH ENGINE MARKETING (SEM)

- Drive traffic to Door County website using a search campaign with branded, general leisure, seasonal and activity pillar keywords
- A "near me" campaign for local searchers looking for things to do
- (RLSA) Retargeting searchers that have already visited the site

GOOGLE DEMAND GEN & PERFORMANCE MAX

- In order to ensure we are utilizing Google's most impactful media offerings, we are shifting from general prospecting and remarketing display to take advantage of their AI-based tactics.
- Google Demand Gen is designed to drive awareness, while Performance Max is focused on driving conversions. The platform responsively serves ads across all Google's channels (YouTube, display, search, discover, gmail, maps) based on the likelihood of the users engagement.

MEDIA PLAN

META/SOCIAL ADS

 Drive traffic to Door County website through social channels to inspire deeper consideration. Customize videos to match where audiences are viewing for a wide range of impactful awareness. Remarket to past website visitors to carry them deeper into the traveler's journey.

EPSILON

• Strengthen Door County brand awareness in niche audiences and gather meaningful data on ad-driven visitation (attribution) and visitor spend with a Net Economic Impact report. Targeting includes core & growth markets as well as past visitors to Door County.

AZIRA/CONNECTED TV

 Improve destination awareness in ways that previously would have been reserved for broadcast TV. CTV leans into the the proliferation of connected television and web-based television viewing consumers.

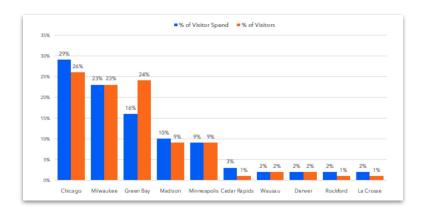

Epsilon NEI REPORT

The Net Economic Impact Report (NEI) goes beyond analyzing hotel bookings alone, and provides a full understanding of how many visitors digital marketing influences, the top feeder markets, and how much they spend across key categories like restaurants, retail, attractions and more.

Will have 2023 & 2024 report as a benchmark for 2025.

KPIs

- Impressions
- Total Messaged Revenue
- Total Visitors
- Return on Ad Spend (ROAS)

MEDIA PLAN

EXPEDIA

- Capture the attention of travel shoppers as they move from consideration to conversion. Increase brand awareness during impactful moments of the trip planning process.
- Target users searching similar destinations, users who have shown an interest in Door County, and users searching our destination competitors (conquesting).
- DMO landing page allowing for customized content and imagery
- Insights include ROAS, travel booking window, and trip duration

CLICKTRIPZ

- As we dive into the world of AI, ClickTripz has a unique AI chatbot option (CHIME) that allows consumers to interact with a fly-in widget that is AI powered and can answer questions in real time about Door County. All answers will link back to the Door County website and can easily be tracked via referral in Google Analytics..
- ClickTripz is also focused on clicks to DoorCounty.com this is an excellent tool to support individuals that are in the consideration phase of the planning journey.
- ClickTripz publisher network is focused on relevant, editorial content

Expedia

CAMPAIGN REPORT

We'll have access to a range of reporting tools to measure campaign performance and impact. These reports:

- Measure the true impact of advertising with return on investment and how many bookings are directly attributable to the campaign.
- Allow for continuous monitoring and optimizing performance based on key success metrics such as click-through rates (CTR), return on ad spend (ROAS), or incremental demand. This ongoing analysis allows for real-time adjustments to maximize campaign effectiveness.

By leveraging these reporting capabilities, we can make informed marketing decisions, stay top of mind with potential travelers, drive demand, and deliver impactful, measurable results.

Example of campaign reporting

2025 NFL DRAFT

Work collaboratively with Discover Green Bay and execute paid media to ensure brand visibility leading up to and during the 2025 Draft event.

Bandwango

Bandwango's signature mobile pass technology organizes local attractions and activities into convenient experience passes. We'll launch a pass ahead of the 2025 Draft to:

- Partner with local business community
- Drive traffic and revenue to local businesses
- Capture (and own) 1st party data for retargeting and targeted promotions
- Curate an experience and Increase engagement

Display Ads

- Partner with ESPN Digital (run ads across ESPN App and ESPN.com to put Door County in front of sports fans)
- Geo-target Green Bay-Appleton DMA leading up to the event and over the event weekend.

Mobile Ads

- Utilize high impact creative from Mobilefuse to draw the attention of Draft attendees while they check their phones during the big event
- Campaign will geofence the Draft footprint and surrounding hotels. IDs captured will be retargeting for 30 days following the event for further consideration

Out-of-Home

- Adomni Drive awareness and consideration for Door County by utilizing ADOMNI's network of inventory (digital billboards, street signage, restaurants, hotels, airports, etc.)
- Wrapify A group of Uber and Lyft vehicles will be wrapped for a collective Door County presence during key time periods (TBD) throughout event

Strategy #2:

Drive core and growth market visitation, where we see high overnight visitation and a high propensity to spend to ensure steady visitation and economic impact generation throughout the year.

CORE MARKETS

2025

Door County's core markets have been evaluated through the analysis of organic and direct website traffic, along with visitation intelligence metrics - which include share percentage and length of stay.

We've seen that the strongest markets for visitors to Door County continue to be:

Green Bay, Milwaukee, Madison, Wausau, Chicago, and Minneapolis/Saint Paul.

We will continue with these as our primary markets going into 2025.

SOCIAL LISTENING VISITOR SENTIMENT

The quality of the visitor experience has always been important. Now it is critical. As traveler demographics evolve and experience expectations continue to rise, valuable insights can be gained from monitoring and tracking visitor sentiment.

We'll monitor and review insights from thousands of online traveler conversations to better understand how people feel about Door County based on their experiences here. We can see satisfaction levels for accommodations, restaurants and attractions from major review sites like TripAdvisor, Google, Facebook, Expedia and others.

Strategy #3:

Elevate the Door County brand through impactful storytelling including but not limited to website content creation via SEO and keyword search data, monthly newsletters, programmatic and traditional media, and enhanced earned media efforts.

Monthly

Newsletter

- Utilize channel to share local stories, inspire travel, highlight communities, provide trip planning resources and seasonal messaging
- Highlight the local business community and events via our co-op advertising opportunities
- Use A/B testing to determine optimal content subject lines, deployment and email structure to ensure performance and engagement
- Execute a year-long campaign to encourage newsletter signups to build on our current 167,000 subscriber list.

Parks Challenge CAMPAIGN

To increase awareness and exposure of the state parks challenge, a paid media campaign will be executed to encourage donations by focusing on established park projects such as the first mountain bike trail system in Door County or redesigning park exhibits with a focus on native cultural history.

Paid Social - Drive traffic to website through social channels to inspire deeper consideration and donations. Targeting refined by audience interest and affinity.

SEM - Campaign with keywords specific to the State Parks campaign. Will be to keep this ad group running until the donation challenge amounts are met.

Mobilefuse - Geofence all 5 State Parks to capture device IDs of consumers who visit. We'll remarket to those devices for 60-days after their visit, driving them to the Parks campaign page where they can make a donation.

Organic

SOCIAL MEDIA

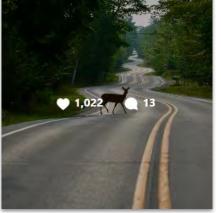

- Connect and engage with a loyal audience to build brand advocates
- Highlight local businesses, attractions, events and more through a creative approach to posts with a boots-on-the-ground feel.
- Educate followers on sustainability practices and stewardship efforts by highlighting what's happening in Door County.
- Influencer Marketing use sporadically as needed to target specific audiences.

Municipal Reimbursement Program

MUNICIPAL REIMBURSEMENT PROGRAM GUIDELINES

PROGRAM OVERVIEW

The purpose of the Municipal Reimbursement Program is to reimburse Door Countly's 19 municipalities for the funds they pay to fund the Door Countly Tourism Zone Commission. Destination Door Countly will be providing the reimbursements from money received from their 70% portion of room tax collections and as such, per state statute, the funds must be used for tourism development and/or promotion. The amount of the fund varies based on the annual Door County Tourism 70m Commission budget.

FI IGIBII ITY

Any Door County municipality located within the Tourism Zone.

FUNDING

Reimbursement amounts will be determined by the percentages listed in the Tourism Zone Room Tax Collection Annual Summary by Municipality Comparative Report provided by the Door County Tourism Zone Commission as part of their annual audit.

ELIGIBLE USES OF FUNDING

Due to the Municipal Reimbursement Program being funded by room tax collections, allowable uses are subject to Wisconsin Statute 66.0615(1) (fm). Eligible uses of municipal reimbursement fund dollars must meet one or more of three conditions.

Allowable expenditures:

- Must be reasonably likely to generate paid overnight stays in multiple lodging properties
- Must be for something significantly used by visitors
- Must be used for visitor recruitment, visitor informational services, or tangible municipal development

Examples of allowable expenditures include:

- ✓ Infrastructure enhancement and/or improvements in public parks
- ✓ Beach improvement projects
- ✓ Informational or directional signage
- ✓ Beautification projects

REIMBURSEMENT REQUEST PROCESS

Upon completion of the Door County Tourism Zone Commission's annual audit, Destination Door County (using percentages derived from TZC's audit) will forward the amounts to be invoiced to each municipality to the TZC. On January 1, the TZC will begin invoicing the municipalities for those amounts.

Payment will be mailed approximately 3-5 business days after receive notification from the Door County Tourism Zone that the invoice has been paid.

ADDITIONAL PROVISIONS

Documenting expenditures is essential to managing compliance risk and minimizing the possibility that costs are deemed ineligible, thereby requiring the municipality return funds to Destination Door County.

Door County Municipalities are obligated to retain records relating to the use of the monies, including, but not limited to, invoices, contracts, receipts, purchase orders, correspondence, and records demonstrating that funds were/will be spent for purposes permitted by state statute. Such records must be made available to

Sustainable Development

MEASUREMENTS

- 1. Help facilitate the creation of the Door County Trail Initiative 501(c)3 organization.
- 2. Award grant dollars in 2025.
- 3. Generate 120 hours of community volunteer time.
- 4. Explore opportunities to convene community partners for a regional stewardship summit in 2026.
- 5. Investigate opportunities to provide community project funding through the Spirit of Door County 501(c)3.

2025 BUDGET NARRATIVE

ADDITIONAL REVENUE

4000-04 Visitor Guide

The revenue projection for the Destination Door County Guide for 2025 stems from the unique timing of our revenue collection process. We are in the advantageous position of knowing the actual revenue figures for the 2025 Destination Guide, as the collection of funds has already taken place this year. Therefore, rather than estimating or predicting potential revenue for the upcoming fiscal period, we have noted the 2025 budget to accurately reflect the revenue realized through this year.

As part of our standard auditing procedures, revenue for the Destination Guide is finalized and adjusted to align with the year in which the guide will be printed and produced. In short, the variance is purely a result of timing in fund collection and recognition, rather than a reduction in the Guide's overall performance.

4000-07 Industry Events

The projected revenue decrease for industry events was prompted by this year's shift from our traditional annual breakfast to a more inclusive community gathering aimed at resident engagement. This year's Top Chef event featured reduced registration fees to accommodate both business partners and residents. We've conservatively estimated revenue, as plans for this year's tourism week event are yet to be determined.

4100-10 Interest Income

The \$40,000 in projected interest income has been conservatively estimated within the budget to allow for greater flexibility in cash flow management. Given the unpredictable nature of financial markets, we have intentionally chosen not to rely heavily on interest earnings as a primary revenue source. This conservative approach ensures that we are not overestimating potential income from interest, which can fluctuate significantly based on external market conditions. By keeping our interest income projections modest, we maintain financial stability and avoid placing undue dependence on a volatile revenue stream, enabling us to better manage resources and plan for sustainable operations.

EXPENSES

6101-01 - 6303-03 Operations - Staff - Salaries, Taxes & Benefits

The rise in overall expenses stems from the benefits section, as several employees either rejoined the Destination Door County health insurance plan or opted in for the first time as new hires. Staff salaries only saw a modest increase of 2.9% and this includes a budget for the addition of two potential full time staff members and one additional seasonal staff member.

6100-13 - Professional Development

The increase in this line is attributed to staff attendance at Door County Legislative Days (Madison, WI) and Destination Capitol Hill (Washington DC) in 2025. These events are critical advocacy platforms where the DDC team can directly engage with policymakers on issues that significantly impact Door County's tourism industry. By being present at the forefront of legislative discussions, our organization ensures that the unique needs of the Door County tourism sector are heard and considered. This involvement helps

protect and promote policies that support the local economy, making the additional expenditure a necessary investment in long-term advocacy and industry sustainability

6100-14 Trade Organization Memberships and/or Publications

The increase in Trade Organization memberships is due to an increase in our US Travel DMO membership fee, which was updated to reflect our actual budget size. Historically, we were listed at the \$5,000,000 budget level, but this was not updated until this year, leading to a higher membership fee.

Our membership with the US Travel Association is invaluable, providing essential advocacy, industry insights, and networking opportunities that help shape national travel policies and drive tourism growth. This membership ensures DDC stays informed on trends and remains competitive in promoting our destination on a broader scale.

6100-18 Mileage (Admin & VI)

The increase in employee mileage expenses for 2025 is primarily due to increased travel within the operations department. Staff are attending more municipal and Community Business Association (CBA) meetings as part of our ongoing efforts to strengthen relationships and cultivate collaboration with our local communities. These meetings, often held across the county, are essential for addressing key initiatives and ensuring alignment with our strategic goals. As a result, increased travel is necessary to maintain our presence and active participation in these important discussions, contributing to the rise in mileage costs

6100-25 Software and Computer Licenses

The increase in this expenditure is due to rising costs associated with the software programs and licensing essential to our operations. As we continue to rely on various platforms for communication, data management, and project execution, the cost of maintaining and upgrading these tools has grown. Additionally, licensing fees have increased as we expand the number of users and adopt more advanced features to meet our organizational needs.

6200-01 Earned Media Program

This decrease is tied to an adjustment in our earned media strategy, reallocating funds from this area to other projects while continuing to host high-caliber travel journalists in Door County through individual and small group trips. Additionally, we will partner with Travel Wisconsin and Great Lakes USA to welcome journalists on familiarization trips as part of US Travel's IPW, a renowned international trade show taking place in Chicago in June 2025

6200-07 Community Communications & Outreach

We moved all print-related items from 6200-07 Community Communications & Outreach to 6300-01 Print, which contributed to a noticeable increase in the print line. This shift helps us better track and manage our print costs by grouping everything under one category. The decrease in this line is a direct result of consolidating these expenses

6200-12 Video Production

The increase in the video production line is due to an exciting opportunity for Door County to potentially be the site and focus of a Hallmark Christmas movie. While we do not yet have a confirmed figure or know if the project will come to fruition, we want to be prepared for the possibility. We've made a conservative projection of what Destination Door County might contribute to support this initiative, but the final number remains to be determined. This investment would significantly enhance our destination

visibility to a key target audience and align with our foundational activity of promoting Door County as a premier destination during the holiday season, which is a time of year where we have capacity

6200-20 Partnership Programing

The increase in partnership programming reflects our commitment to providing enhanced educational opportunities for our partners, improving partnership collateral, and expanding networking events. By investing in these areas, we aim to equip our partners with valuable resources and create more opportunities for business growth and community engagement.

6200-21 Sustainability Programs Initiatives

In 2025, we are increasing our investment in sustainability programs to underscore our commitment to environmental responsibility. We will expand water stations across 35 event days to reduce single-use plastic bottles and provide fresh water. Additionally, we'll introduce composting and recycling at three major events to effectively manage waste and reduce landfill contributions. These initiatives enhance our environmental stewardship, improve community impact, and set industry standards for responsible event management.

6200-23 Strategic Community Support

The increase in the Strategic Community Support is driven by our dedication to advancing key initiatives that benefit both the local community and the visitor experience in Door County. We have added \$150,000 to the Community Investment Fund over 2024, bringing the 2025 budgeted total to \$900,000. This additional funding strengthens our ability to support local projects that align with our mission, providing much-needed resources for initiatives that enhance the quality of life for residents while still prioritizing long-term tourism sustainability.

In addition to increasing the Community Investment Fund, part of the additional budgeted funds for this line include the addition of our Workforce Development and Parks Challenge campaigns that were shifted into this budget line as they better align with our strategic community support efforts

6300-21 Strategic and Content Planning

The reduction in the Strategic and Content Planning line is primarily due to the completion of our contract with MMGY and the finalization of the stewardship plan. With the stewardship plan now complete, efforts related to the 10-year plan will be transitioned in-house, reducing the need for external consulting services.

6300-22 Research

The increase in this line item reflects a growing emphasis on gathering comprehensive data to better inform marketing strategies and initiatives. Rove and Travelsat are two tools that assist Destination Organizations in this effort.

- Rove: Focuses on collecting visitor movement and behavior data. It provides insights into how
 and where visitors are spending their time within a destination. This data helps Destination
 Organizations track visitor flows and determine high-traffic areas or underutilized spaces.
- **Travelsat**: TravelSat, a respected tourism and destination analytics tool, is utilized to gauge resident sentiment regarding tourism. This tool provides in-depth insights into how residents feel about the impacts of tourism on their community, contributing valuable data that informs strategic planning and community relations efforts. The focus on resident sentiment aligns with Destination

Door County's commitment to enhancing the quality of life for locals while supporting a robust visitor economy

We intend to use data from Rove and Travelsat to assist in refining marketing campaigns ensuring a balanced approach to tourism growth and long term sustainability.

6300-30 Web Mobile Web

This increase is the result of minor adjustments across several subcategories within this line item, reflecting modest rises in service costs. Additionally, we have introduced CookieBot as a new line item, an essential tool for ensuring our website remains compliant with data privacy regulations.

6300-31 Print

In addition to the consolidation of print allocations from 6200-07, in 2025 we added an opportunity with Midwest Living. The Midwest Living Road Rally is a cross-channel marketing opportunity for Door County as part of a state-wide promotion to provide travel inspiration and help increase brand awareness. Partnering with Midwest Living (and in collaboration with Lake Geneva and Milwaukee), this feature shines a light on Door County as one of three premier vacation destinations in the state of WI and allows us to leverage their print audience size of 2.3 million and digital audience size of 2.5 million (website and social media).

6300-32 Television/Video

This decrease in this line corresponds to the increase in account 6300-34 Online Interactive, as we shifted the Google video ad buy to that account.

6300-34 Online Interactive

The Online Interactive category encompasses our digital display ads, which leverage digital technology to engage users and enhance the relevance and appeal of ads (e.g., mobile experiences, motion graphics, etc.). This line item has increased compared to last year as we reallocated a portion of funds from 6300-32 Television/Video to this category in response to changes made by Google to their advertising platform.

6300-36 State & Regional Guides

The increase in the State & Regional Guides is due to our advertising in Great Lakes USA, an international marketing consortium promoting travel to the Great Lakes region, including eight U.S. states and Ontario. Great Lakes USA reaches key international markets, especially in the UK and Europe, through digital platforms and publications, providing us a valuable opportunity to increase visibility and attract more international visitors.

6300-61 Municipal Reimbursement Program

The projected increase in this line reflects the Tourism Zone's plan to hire a third staff member.

6300-80 Sponsorships

The increase in the sponsorship line stems from the consolidation of the sponsorship subcategory previously listed under *6200-23 Strategic Community Support*. By merging these areas, we aim to create a more efficient and focused approach to sponsorship allocation, ensuring that resources are better utilized to support key initiatives or programs that align with our Strategic Plan.
