Wait moved and Robillard seconded to approve the Minutes of the October 17, 2024, Full Commission meeting. Motion carried.

Baileys Harbor licensing consolidation request.

The Town of Baileys Harbor proposed using the tourism zone's database to streamline short-term rental (STR) permitting processes. The initiative aims to improve administrative efficiency, especially in reconciling town STR permits with tourism zone permits, ensuring compliance and proper data sharing. Wait stated she would not be opposed to Baileys Harbor taking a trial run at this proposal subject to:

- a. Baileys Harbor would be responsible for all costs and resources required to come up with and implement appropriate administrative agreement between the town and the zone, and that would include all staff time and materials to

establish and maintain the process, any and all legal fees and costs associated with the proposal, including all final agreements and implementation.

- b. An airtight hold, harmless agreement, agreement and duty to defend for the benefit of the zone as an entity and for all each of the individual Commissioners and as to the individual municipalities.
- c. That individual municipalities would have the privilege to opt-in, and they can opt-out or not participate at all; with each municipality responsible for their individual agreements.

36 Weddig questioned if the issuance of the Tourism Zone permit would be dependent on the issuance of the municipal permit. Van Lieshout responded that this is a services arrangement so that the town's permits are separate and distinct from the permit the Commission is required to issue for the collection of lodging tax. Ward voiced their concerns about all the municipalities being forced into a uniform ordinance as a result of this agreement and that their municipalities would prefer to retain as much control as they can over their ordinances. Van Lieshout responded that there are 19 member municipalities and 19 different perspectives, the intent is not to have a uniform STR ordinance, this is a service agreement, if another municipality wants to try it as well that would be yet another agreement that the Commission would have to approve. Eliot clarified that Baileys Harbor wants full control of their ordinance, the proposal is for the storage and collection of data and increasing the efficiencies. Nelson asked if the commission intends to go to every other municipality and look at the unique requirements and then look at whether or not the Commission can satisfy those requirements. Van Lieshout stated it would be up to the municipality to approach the Commission if they felt they could gain some efficiencies by using existing data or processes, but there's no intention to make proposals or seek other contracts. LeBelle stated her concerns about the impact on the zone and the staff, and also stated the proposal doesn't align with the tourism zone mission statement which states the commission's job is to distribute and collect room tax. Van Lieshout stated according to the Commission's attorney Vande Castle, the Commission has the authority to do this but under a separate services contract. Van Lieshout also mentioned there will be staff time, and some staff costs but Commissioner Wait's requirement that the Commission should be reimbursed would bring those costs as appropriate. Van Lieshout clarified the goal today is to seek the Commission's approval to go forward and negotiate a contract with the Town of Baileys Harbor; that contract has to come back to the Commission for approval. The contract would have all assurances, guarantees, and cost reimbursements then it will be up to the Town of Baileys Harbor whether or not they will agree. Eliot asked Behme if she had any input about the impact on the zone and the staff. Behme stated the Commission is in the process of attempting to hire a third person and that would provide leeway in terms of functionality; also given the time it will take Baileys Harbor to accomplish the legal and technological framework the Commission would have enough time to be prepared. Further discussion took place about the Baileys Harbor licensing consolidation request.

37 **Howson moved and Van Lieshout seconded to approve Baileys Harbor licensing consolidation request.** Approved by a vote of 13 in favor and 8 opposed. Motion carried. Motion carried.

38 **Family and Medical Leave Policy**

BridgeUSA Summit

It was an honor to represent Door County at the BridgeUSA Summer Work Travel Community Support Group Summit, our first in-person gathering since 2019. This valuable event provided opportunities to connect with representatives from the U.S. Department of State, Social Security Administration, and destinations nationwide to address shared challenges and exchange solutions.

A highlight was meeting Ethan Bursofsky, Branch Chief of Summer Work Travel, and his team in person to discuss concerns and advocate for increased participant placements in Door County. Key sessions covered topics such as crisis management, housing, transportation, participant mental health, Social Security, intercultural competencies, and DEIA.

I'm now collaborating with Stacie Tollakson (Intrax) to engage partners interested in becoming J-1 Host Employers. We're also coordinating with sponsors to offer a webinar about the opportunities and responsibilities of hosting J-1 participants.

Permitted Properties Report

As of the date of the Permitted Properties Report, December 4, 2024, there were 1,559 permitted properties. 103 properties have been permitted since May 1, 2024, the date of the last report. As a reminder, new properties permitted do not necessarily mean that the property is new to the rental inventory. A property often will sell, be deactivated and then re-permitted to the new owner.

By Unit Report

The By-Unit report was completed on December 4th, 2024 and breaks down the number of permits and units by property type. It also includes a historical account of the type distributions throughout the Commission's existence.

Currently, homes represent 78.13% of permits, a 0.5% increase from May 2024. This category accounts for 29.05% of all units. Resorts represent only 2.50% of all permits but represent 31.44% of all available units. Our account of current permits has shown that 88.13% of all permits have at least one form of online advertising including marketplace provider profiles, individual websites, agent listings, or Facebook etc. There are 386 properties that utilize a property management company to manage rentals.
